

THE LENDERS COALITION FOR COMMUNITY HEALTH CENTERS

ABOUT US

The Lenders Coalition for Community Health Centers (LCCHC) is a coalition of 25 community development financial institutions (CDFIs) involved in community health center lending whose main goal is to advocate for resources and policies that will strengthen health centers' access to capital and CDFIs' ability to finance community health center growth.

- Through 2017, LCCHC members have made loans totaling more than \$2.2 billion to community health centers in 35 states and the District of Columbia.
- Nearly \$1.2 billion of these loans were related to New Markets Tax Credit financings.
- LCCHC member-financed projects serve more than 3.5 million patients annually – 14% of all health center patients.

Health centers financed by LCCHC member CDFIs present remarkably low portfolio risk to lenders.¹

- 4.3% of loans rated high risk
- 1.1% of loans delinquent for 60+ days
- 1.1% of loans defaulted
- 0.9% of loans ever on non-accrual
- 0.2% of loans foreclosed or charged off
