Established in 1996, Home HeadQuarters Inc. works to serve low-to-moderate income individuals and families who might not be able to take advantage of traditional lending or homeownership opportunities because they lack home equity, or fall just below bank credit requirements. The mission of Home HeadQuarters is to create housing and related opportunities and services in Central and Upstate NY that improve the lives of underserved people, and revitalize the communities in which they live. The products and services of Home HeadQuarters include nationally certified homebuyer education for first time homebuyers, financial and homeownership counseling, foreclosure prevention, and real estate planning and development. Home HeadQuarters is also one of the largest regional providers of affordable home and energy improvement loans such as the FlexFund Home Improvement loan, and energy grants to area homeowners. Since its inception, the organization has revitalized efforts within the city of Syracuse and central New York.

Success Story: Jeremy Neumann, Syracuse, NY

Jeremy Neumann was tired of renting and thought he was ready to buy his first home. He registered for Home HeadQuarters’ Nationally-certified Homebuyer Education Course, which taught him financial literacy needed to own a home. He also took advantage of Home HeadQuarters’ Down Payment and Closing Cost Assistance and is now a first mortgage customer. Thanks to this technical assistance, he now owns his own home. “I recommend working with Home HeadQuarters because there I’m not just a number on someone’s spreadsheet, they care about me,” Jeremy said.
