# REINVESTMENT FUND

Reinvestment Fund is a catalyst for change in low-income communities. We integrate data, policy and strategic investments to improve the quality of life in low-income neighborhoods. Using analytical and financial tools, we bring high-quality grocery stores, affordable housing, schools and health centers to the communities that need better access—creating anchors that attract investment over the long term and help families lead healthier, more productive lives. Over the last 30 years, we have put more than \$1.7 billion to work for communities across the country.

### Success Story: Pythian Building, New Orleans, LA

The Pythian Building is a historically important, vacant 10-story building in the downtown business district of New Orleans. For two generations, the Pythian Building was the center of cultural life for African-Americans in the city. Reinvestment Fund financing is now helping breathe new life into the building by converting it into workforce affordable housing units and commercial space. Tenants will include a Federally Qualified Health Center and other small and health-related businesses, including a woman-owned physical therapy business. Reinvestment Fund is providing New Markets Tax Credit allocations and loans to bridge state and federal historic tax credit equity for the project.
