- 39 affordable housing units financed
- $177 million total financing leveraged

Civic San Diego Economic Growth and Neighborhood Investment Fund

Civic San Diego Economic Growth and Neighborhood Investment Fund is a Community Development Entity and emerging CDFI formed in 2012. Our mission is to spur community and economic development by providing capital and real estate solutions as well as technical assistance. We serve an investment area of all low-income census tracts in the County of San Diego.

To date, we have received and deployed four rounds of New Markets Tax Credits totaling $133 million and have also committed more than $2 million in CDFI loans to community-based nonprofits. Our strategy is to provide loans that enable disadvantaged businesses to grow, create quality jobs, and deliver critical goods and services to San Diego County’s low-income residents.

Success Story - Access Youth Academy, San Diego, CA

An $855,000 acquisition and predevelopment loan and a $4 million New Markets Tax Credit investment enabled Access Youth Academy to break ground on a new state-of-the-art squash and learning center in the San Diego Promise Zone that will support over 1,000 local underserved students in obtaining scholarships to prestigious universities—up from 120 students at their previous facility. To feel the power of Access’ 12-year-long commitment to youth, check out the episode The Jaguar on the Apple TV+ show, Little America.
