NACDC FINANCIAL SERVICES

The mission of NACDC Financial Services (NACDCFS) is to encourage economic development and enhance the quality of life for communities and residents located on or near Montana's Indian Reservations by assisting entrepreneurs with training, business incubation, and access to capital. We provide consumer, microenterprise, and small business loans as well as training and technical assistance on the seven Reservations in Montana.

Financial and Social Impact

- 582 loans provided
- \$1.1 million in financing provided to small businesses and microenterprises
- \$1.4 million in affordable housing financing provided
- 16 affordable housing units financed
- \$2.9 million in nonprofit financing provided
- \$2.2 million in total non-equity financing leveraged due to financing

Success Story – Lube & Tube, Browning, Montana

Jeff Rutherford walked through the doors of NACDC Financial Services in the Spring of 2016 with the idea of pursuing his lifelong dream of owning a tire and oil change shop in Browning, MT. Through pure determination, endurance, and perseverance, Jeff and his wife, Jessica, were able to purchase and reopen an existing auto repair and tire shop two years later. Not only did NACDCFS help the Rutherford's write their initial business plan and create financial projections, the CDFI also helped them finance their working capital needs and secure additional financing from First Interstate Bank for the business purchase. Opening its doors in August 2018, Lube & Tube's motto is, "We get you back on the road, so you can get where you need to go."
