The mission of the Salt River Financial Services Institution (SRFSI) is to empower all generations of the Salt River Pima-Maricopa Indian Community, a sovereign tribe located in the metropolitan Phoenix area, through financial and educational services delivered with integrity and excellence. The organization provides loans to help members of the community buy or improve their homes, and start or expand their businesses. It also offers more than two dozen financial education courses through its Salt River University. In 2009, SRFSI launched Mesquite Trails, the first subdivision of sustainable homes built in Indian Country. SRFSI's other products and services include home loans, homeownership services, business loans, and business education services for small business owners.

Success Story: Keith & Christy Andrews, Salt River Indian Community, AZ

Thanks to SRFSI, Keith and Christy Andrews are now living in their dream home. SRFSI not only gave them a loan, but also provided the homeowners training, and an Individual Development Account to help them get started. SRFI also helped the couple design the home and select a contractor. “I don’t know that we could have done this on our own. It would have been a lot to take on if we had to do it alone,” Christy said.
